

Attention Vendors:

We thank you for your interest in the Bridgeport Public Schools. As you are aware, financial hardships have been felt across the nation. Regretfully, the Bridgeport Public School District is unable to adopt any new programs which will endure any type of current or *immediate* future financial obligations. All funds have been allocated for current Scientifically Researched Based Interventions that we *anticipate* will help accomplish all district goals according to the district's *current* Strategic Plan.
